Operation Certain Death Dec 26 2021 The terrifyingly true tale of a daring British special forces rescue mission and all-out assault on a savage Sierra Leone guerrilla gang: “What a story!” (Frederick Forsyth, #1 New York Times–bestselling author of *The Day of the Jackal*). Officially, the SAS mission was called Operation Barras. The men on the ground called it Operation Certain Death. In 2000, the British Special Air Service (SAS) attempted its riskiest rescue mission in more than half a century. A year before, an eleven-man patrol of Royal Irish Rangers who were training government troops in Sierra Leone was captured and held prisoner by the infamously ruthless rebel forces known as the West Side Boys. Their fortified base was hidden deep in the West African jungle, its barricades adorned with severed heads on spikes. Some four hundred heavily armed renegades were not only bloodthirsty—they were drink-and-drugs crazed. The guerrillas favored pink shades, shower caps, and fluorescent wigs, draping themselves in voodoo charms they believed made them bulletproof—a delusion reenforced by the steady consumption of ganja, heroin, crack, and sweet palm wine. This was the vicious and cutthroat enemy British special forces would confront in order to rescue their own. Featuring extensive interviews with survivors, this gritty, blow-by-blow account of the bloody battle that brought an end to ten years of Africa’s most brutal civil war is “as good as any thriller I have

ever read. This really is the low down” (Frederick Forsyth).

Last Run Mar 05 2020 For the men of Sierra Company, 75th Rangers, the Vietnam war means more than loyalty to their country. It means loyalty to each other. You don't choose your comrades in war—they are assigned to you. And there, in the jungle, where there is no past or future, men from totally different backgrounds forget their differences and struggle with the basic questions of survival. The Last Run is an action-packed story of men at war—and of the unseen wounds our veterans brought home. Author Leonard B. Scott also wrote the bestselling Vietnam novel Charlie Mike, which was hailed by The Washington Post as “vivid, compelling . . . One of the finest novels yet written about the Vietnam war.” Like Charlie Mike, The Last Run is a story you will never forget.

God Is Not a Story Aug 29 2019 This is a challenging critique of narrative theologies. Murphy argues that the widespread notion that the role of the theologian is so 'tell God's story' has not helped theology to advance the reality of its doctrines. She offers her own alternative approach, making use of cinema and film theory.

The Gemini Agenda Nov 12 2020 Mattie McGary, a photojournalist for William Hearst, and her lover, Bourke Cockran, Jr., look into the grisly murders of American twins and uncover startling connections to an artifact and a Nazi clinic in the Bavarian Forest.

Counterfactual Romanticism Dec 14 2020 Innovatively extending counterfactual thought experiments from history and the social sciences to literary historiography, criticism and theory, *Counterfactual Romanticism* reveals the ways in which the shapes of Romanticism are conditioned by that which did not come to pass. Exploring various modalities of counterfactual speculation and inquiry across a range of Romantic-period authors, genres and concerns, this collection offers a radical new purchase on literary history, on the relationship between history and fiction, and on our historicist methods to date – and thus on the Romanticisms we (think we) have inherited. *Counterfactual Romanticism* provides a ground-breaking method of re-reading literary pasts and our own reading presents; in the process, literary production, texts and reading practices are unfossilised and defamiliarised.

Down to the Crossroads Apr 05 2020 If the past is a foreign country, 2008 is another planet.

Who imagined the United States electing its first black president? Who imagined the scale of the global economic crisis? Who imagined Sarah Palin? Guy Rundle was on the ground throughout the momentous election, trailing its unlikely cast of candidates from Washington to Wasilla - the steely former First Lady and the backwater hockey mom, the maverick Republican war veteran and the Southern Baptist bass player, and the youthful greenhorn who was catapulted into the global spotlight. With caustic wit and political nous, Rundle's celebrated Crikey reports told the day-by-day story of the gruelling primaries, orgiastic conventions and debates. Hillary's photogenic tears, Troopergate, the bailout, 'Walnuts' McCain's countless houses, Tina Fey. . . Rundle counters the spin with the homespun, talking to cab drivers, party volunteers and fellow bar flies. The result is a compelling and irreverent record of the history-making year, when America went down to the crossroads and chose an inspirational new direction for the world. 'Far and away the best coverage of the election' - Phillip Adams

Reflections Jan 27 2022 “The historian,” wrote E. L. Doctorow, “will tell you what happened. The novelist will tell you what it felt like.” This book sees Peter Hennessy and Robert Shepard combine both approaches with the art of the interviewer, a craft at once sensitive and probing. *Reflections* collects transcripts of the best interviews from the BBC Radio 4 series *Reflections* with Peter Hennessy, a show on which the British political elite have spoken candidly about their careers and the moments that came to define their political lives. Supplementing the interviews are short biographies and profiles of the interviewees, allowing readers a fuller picture of each speaker’s background and professional trajectory. This revealing book includes conversations with political heavyweights such as former prime minister John Major; former foreign secretaries

Margaret Beckett, David Owen, and Jack Straw; Labour Party leader Neil Kinnock; Liberal Party leader David Steel; and chancellor of exchequer Nigel Lawson. In addition, Reflections presents interviews with leading women, including Shirley Williams and Clare Short, who spent years at the forefront of their parties in Westminster. The latest volume in the popular Haus Curiosities series, Reflections offers valuable insights from some of today's most influential political figures.

A Damn Close-Run Thing Oct 04 2022 In 1982, the average Briton didn't know the Falkland Islands existed, let alone their status as a disputed British territory just off the coast of Argentina. That changed when the Argentinians invaded the islands and overwhelmed the small defending force. Both nations claimed the islands were theirs, but now Argentina thought the British would give them up without a fight. They were wrong. Britain sent a task force into the South Atlantic to re-take the islands, and the short, intense war that followed was--in the words of Major-General Sir John Jeremy Moore--"a damn close-run thing." This short history sums up the events leading up to the war and its major military actions including details of an Argentinian plan to sink a Royal Navy ship in Gibraltar harbour (foiled at the last minute by Spanish police) and an audacious British plan to land SAS soldiers in Argentina to destroy Exocet-carrying aircraft while they were still on the ground. Dream Quest: A Seeker's Guide to Finding the Purpose of Being Aug 10 2020 Dream Quest reveals a series of vivid lucid dreams that foretell the future and delve into the nature of being.

The dreams happened as described, although they are presented within the context of a fictionalized trek that is set on the slopes of New Hampshire's Mount Major. Alexander and his companions Verity and Futura eventually find refuge from the night's chill within Madame Leonedria's grotto. Therein, his dreams about the future, human nature, and reality are discussed in depth. Alexander felt both cursed and blessed by these remarkable events, for the gift that allowed him to find a metaphysical path to God's door slowly began consuming his mind. Indeed, the condition that sparked his visions degenerated Alexander's brain, and his memories are now fading. However, the experiences were recorded long ago, and they leave a message that might change your life. This is far more than a book about spirituality or morality. This is a quest for purpose.

The Battle of the Atlantic May 31 2022 The authoritative naval historian Bernard Ireland takes a fresh and fascinating look at the long and bitter struggle waged by the Allies against the Nazi U-boat threat. After sifting through the evidence, old and new, he questions the popular theory that it was a 'damn close-run thing'. He cites the massive resources that the United States brought to bear both at sea and in their shipyards, together with advances in technology and the breaking of German codes by Enigma. Far from 'revisionist' history, this is a closely argued work that demands reading.

Venetia Kelly's Traveling Show Apr 29 2022 BONUS: This edition contains an excerpt from Frank Delaney's *The Matchmaker of Kenmare*. January 1932: Ben MacCarthy and his father watch a vagabond variety revue making a stop in the Irish countryside. After a two-hour kaleidoscope of low comedy, juggling, tumbling, and other entertainments, Ben's father, mesmerized by Venetia Kelly, the troupe's magnetic headliner, makes a fateful decision: to abandon his family and set off on the road with Miss Kelly and her caravan. Ben's mother, shattered by the desertion, exhorts, "Find him and bring him back," thereby sending the boy on a Homeric voyage into manhood. Interweaving a host of unforgettable creations—"King" Kelly, Venetia's violent, Mephistophelean grandfather; Sarah Kelly, Venetia's mysterious, amoral mother; and even a truth-telling ventriloquist's dummy named Blarney—Frank Delaney unfurls a splendid narrative that spans half the world and a tumultuous decade.

The Newspaper: A SHGGFTAWSGDSSFDF Delivery May 19 2021 During the Second World War, information was one of the most precious currencies there was. And in this light-hearted and humorous one-shot adventure, delivering a simple newspaper could be the one thing which stops an entire village being erased from the history books and forgotten forever. In *The Newspaper*, the player characters will have to overcome a number of wartime challenges to ensure their delivery makes it into the hands of Dr Barnett Stross, a doctor and local politician in Stoke-on-Trent. If the mission succeeds, their newspaper will alert Dr Stross to the plight of Lidice, a Czechoslovakian village razed to the ground by the Nazis, and inspire him to start the Lidice Shall Live campaign. While the stakes may be high in this adventure, the action is far from serious. Players will have to keep their heads down and avoid the police, keep their valuables from being stolen by pickpockets, survive an air raid, and stay on the right side of the Home Guard. Will you complete the mission with your dignity intact? Or will your newspaper merely end up being the next day's fish and chip paper?

Dictionary of common misconceptions Jul 01 2022 555 entries organized in 127 sections to identify misconceptions. Mistakes made by many: preconceived notions obtained from observations of the natural world, religious ideas that disagree with scientific evidence, incomplete or flawed understanding of concepts as well as vernacular misconceptions. This book is a modest compilation of the common prejudices and misconceptions in the fields of human knowledge. It concisely lists, categorized, viewpoints that are often accepted as true but are actually false, generally arising from conventional wisdom, stereotypes, superstitions, fallacies, misunderstanding of science, or the popularization of pseudoscience. It is based on a long list of

common misconceptions published in the English Wikipedia (List of common misconceptions). The list has been then expanded by merging unique content (further original lists of misconceptions) from Arabic, Catalan, Chinese, Croatian, French, Hindi, Hungarian, Indonesian, Irish, Japanese, Korean, Persian, Portuguese, Romanian, Sinhala, Somali, Spanish, Thai, Turk, Ukrainian, and Vietnamese wikipedias. Its little merit is therefore that of reporting brief explanations about common misconceptions from all available sources. An additional source have been the following articles from the English Wikipedia: List of common misconceptions about language learning, List of common false etymologies of English words, Common English usage misconceptions, Misquotations, List of common misconceptions about the Middle Ages, Tornado myths and Misconceptions about HIV/AIDS). Each entry lists its source with the subdomain entry identifying the underlying Wikipedia, typographically marked as superscript (like Santa Klaus EN). This allows everyone to verify at will the original (which is especially advisable and encouraged when it comes to translated entries), and refer to its proper sources, notes and references, that are omitted here to enhance legibility. An index of each individual entry has been added to the end of the volume.

Dracula's Wars Apr 17 2021 The real Dracula was far from Bram Stoker's well-mannered aristocrat. Better known as Vlad the Impaler, he was named for his favoured execution method: running a spear through his victim's lower body, then standing them upright so it skewered their vital organs. In a world ruled by petty tyrants and constantly at war, the young Dracula was held hostage by the Turks while his father was assassinated and his brother was buried alive. Finally released, Dracula conducted an almighty purge, surrounding his palace with noblemen impaled on stakes. Then he turned his attention to military campaigns against the Turks and Bulgars to consolidate his power. Yet to Romanians and the Pope he was a hero and liberator, fighting to protect his kingdom and countrymen from invasion in a complex and treacherous time. And, as an initiate in the Order of the Dragon, Dracula also played a vital (if not entirely noble) part in the fight against the Ottoman war machine. In this full account of Vlad Dracula, James Waterson details the good and the bad of this warlord prince, offering a fascinating insight into the violent end of the Middle Ages.

"An illuminating guide to the use and abuse of history in affairs of state" (Arthur Schlesinger).

The Good, the Bad and the Greedy Jun 19 2021 Capitalism – once a great engine of human

progress – has lost its moral compass, lost public trust and is urgently in need of repair. This has become a familiar refrain since the global economic downturn and has worsened through the pandemic. The young of today tend to regard wealth and its creation as alien to the society in which they wish to live, rather than essential to its well-being. Yet, they also regard personal debt, through credit cards and consumer loans, as a matter of entitlement, rather than burden, and have lost the frugal habit of saving that helped their parents' generation build better futures for themselves. *The Good, the Bad and the Greedy* examines how distortions of capitalist mechanisms, and public attitudes towards them, might be rebalanced and how capitalism will be at the forefront of society's recovery from coronavirus. This seminal critique, written from the point of view of a deep admirer of entrepreneurship and private sector investment as a proven path to innovation, social progress and prosperity, argues that businesses always operate in a social context – that a 'good' business in a moral sense can also, in a perfect world, be a business that richly rewards its creators and backers – so long as the basic principles are right. Putting aside the nonsense of corporate virtue signaling, Vander Weyer formulates a number of core principles, separating out 'the good' and 'the bad' in today's corporate arena – and placing the spotlight fiercely on a third element: 'the greedy'.

A Fleet in Being Jan 15 2021 The Kaiserliche und Königliche Kriegsmarine – The Austro-Hungarian Navy – was in at the beginning of World War I when Archduke Franz Ferdinand and his wife Sophie lay in state aboard its flagship, and at the end when it dissolved along with the

empire that commanded it. During the war, this small but powerful “fleet in being” forced the Allies to maintain a blockade of the Otranto Straits. German and Austro-Hungarian u-boats ran riot elsewhere in the Mediterranean even though the capital ships almost never left port. Illustrated with thirty photographs and drawings, this book provides a comprehensive and detailed reference of the ships that made up the KuK Kriegsmarine, its operations, and the unique problems this unusual fleet faced, from contentious duelling parliaments to ships built by landlocked Hungary.
