The Other Classroom Nov 28 2019 This book details the importance of high school athletics to the student athletes, beyond just the sports experience itself. It argues that the lessons learned, tools acquired, and values instilled have an enduring impact and prepare young athletes for the challenges they will face in life after their formal education is complete.

Agriculture and Rural Development in a Globalizing World

Jun 15 2021

Rapid structural transformation and urbanization are transforming agriculture and food production in rural areas across the world. This textbook provides a comprehensive review and assessment of the multi-faceted nature of agriculture and rural development, particularly in the developing world, where the greatest challenges occur. It is designed around five thematic parts: Agricultural Intensification and Technical Change; Political Economy of Agricultural Policies; Community and Rural Institutions; Agriculture, Nutrition, and Health; and Future Relevance of International Institutions. Each chapter presents a detailed but accessible review of the literature on the specific topic and discusses the frontiers in research and institutional changes needed as societies adapt to the transformation processes. All authors are eminent scholars with international reputations, who have been actively engaged in the contemporary debates around agricultural development and rural transformation.

Governance and Policy in Sport Organizations Feb 21 2022 Now in a fully updated new edition, this textbook introduces readers to the power and politics of sport organizations. It explores the managerial activities essential to good governance and policy development, and looks at the structure and functions of individual organizations within the larger context of the global sport industry. Reflecting the latest industry changes, it draws on a fresh selection of real-world examples to demonstrate the types of dilemmas that sport managers face every day. Professional administrators from a wide variety of sport organizations also offer their insights, giving readers a glimpse into the real concerns of sport professionals and the impact of governance and policy on their jobs. Exploring current topics, such as sport and human rights, refugees, social media, and the evolution of eSports, this practical and accessible textbook helps readers to see the big picture of the contemporary sport industry and find their place in it as future sport managers. Complemented by a new companion website full of useful ancillary materials, this is an essential resource for all sport management students and instructors.

Population Dynamics in Eastern India and Bangladesh Oct 27 2019 This book highlights historical and current perspectives on population issues in the Bengali-speaking states of India (i.e., West Bengal, Tripura, Assam) and Bangladesh and explores three core population dynamics: fertility, mortality-morbidity and development. Furthermore, it presents a selection of revealing cases from area-specific micro-

studies, mainly conducted in West Bengal and Bangladesh. The book covers various demographic and health issues in these two regions, which are similar in terms of several sociocultural aspects, yet dissimilar in terms of their policies and programs. Adopting an integrated approach that combines various disciplines and perspectives, it explores highly topical issues such as social inequality, religious difference and mental health. The book is intended for a broad readership interested in population studies, sociology and development, including academics, researchers, planners and policymakers.

Interior, Environment, and Related Agencies Appropriations for 2011, Part 1A, 2010, 111-2 Hearings Oct 08 2020

Sport Development in the United States Jan 23 2022 The development of both elite, high performance sport and mass participation, grassroots-level sport are central concerns for governments and sports governing bodies. This important new study is the first to closely examine the challenges and opportunities for sports development in the United States, a global sporting giant with a unique, market-driven sporting landscape. Presenting an innovative model of integrated sports development, the book explores the inter-relationship between elite and mass sport across history, drawing on comparative international examples from Australia to the former USSR and Eastern bloc countries. At the heart of the book is an in-depth empirical study of three (traditional and emerging) sports in the US – tennis, soccer and rugby – that offer important lessons on the development of elite sport, methods for increasing participation, and the establishment of new sports in new markets. No other book has attempted to model sports development in the United States in such depth before. Therefore this should be essential reading for all students, researchers, administrators or policy-makers with an interest in sports development, sports management, sports policy, or comparative, international sport studies.

Contemporary Sport Management is organized into four parts. Part I provides an overview of the field and the important leadership concepts associated with it. Part II details the major settings in which many sport management positions are carried out. In part III, readers learn about the key functional areas of sport management, including sport marketing, sport consumer behavior, sport communication, sport facility and event management, and more. And in part IV, readers examine current sport management issues, including how sport management interfaces with law, sociology, globalization, analytics, and research. Every chapter includes a section or vignette on international aspects of the field and ethics in sport management. This text particularly focuses on the ability to make principled, ethical decisions and on the ability to think critically. These two issues, of critical importance to sport managers, are examined and analyzed in detail in this book. Contemporary Sport Management, Sixth Edition, will broaden students' understanding of sport management issues, including international issues and cultures, as it introduces them to all the aspects of the field they need to know as they prepare to enter the profession. With

its up-to-date revisions and new inclusions, its internationally renowned stable of contributors, and its array of pedagogical aids, this latest edition of Contemporary Sport Management maintains its reputation as the groundbreaking and authoritative introductory text in the field.

The Oxford Handbook of Women and Competition Feb 09 2021 While women are generally perceived to be less competitive than men, women compete in many ways and in a variety of situations. Women try to make themselves look more attractive to draw the attention of a desirable mate. They will use gossip as a form of informational warfare to influence reputations. They compete as mothers to gain access to resources that directly influence the health of their children. They use selfies posted on social media to manipulate others' perceptions. Women compete all of their lives: in the womb, through adolescence and adulthood, and into their elder years. The topic of women's competition has gained significant momentum over the years. Edited by Maryanne L. Fisher, The Oxford Handbook of Women and Competition provides readers with direct evidence of this growth and is one of the first scholarly volumes to focus specifically on this topic. Fisher and her team of contributors offer a definitive worldview of the current state of knowledge regarding competition among women today. Many of the chapters are grounded within an evolutionary framework, allowing for authors to investigate the adaptive nature of women's competitive behaviors, motivations, and cognition. Other chapters rely on alternative frameworks, with contributors also asserting that socio-cultural forces are the culprit shaping women's competitive drives. Additionally, several contributors focus their attention on issues faced by adolescent girls, and explore the developmental trajectories for young women through adulthood. Designed to serve as a source of inspiration for future research and direction, The Oxford Handbook of Women and Competition is a stand-out scholarly text focusing on the many competitive forces driving women today.

ISS 22 Indian Muslims Jun 23 2019 Research shows that Indian Muslims experience higher levels of development and equity deficits. Indian Muslims are also predicted to become the largest Muslim population in the world by 2050. This increase in numbers might exacerbate their relative deprivation, creating a disjunction between India's constitutional promises of 'equality of opportunity' for citizens of a secular democracy—including for minorities—and the existential

reality. This will create social and political conditions that could undermine the stability of the country's democracy and make Indian Muslims a security threat, which would have not only national but also global ramifications. This book examines the struggle for equality of citizenship of Indian Muslims in light of the release of the Sachar Committee report of 2006, which sparked widespread awareness of socioeconomic disparity and exclusion of religious minorities in India, especially Muslims. The contributors are some of the most eminent social scientists in the fields of applied economics, politics, sociology and demography who work on Indian issues. The Indian state and its political infrastructure have been relatively successful thus far in countering the challenges presented by the diversity of its population. India therefore has the capacity and the ability to deal with these new challenges, given the political and collective will.

Tribal Development Report Mar 01 2020 This book sheds light on the status of tribal communities in Central India with respect to governance, human development, gender, health, education, arts, and culture. Written by noted academics, thematic experts, and activists, this first-of-its-kind report by the Bharat Rural Livelihoods Foundation brings together case studies, archival research, and exhaustive data on key facets of the lives of Adivasis, the various programmes meant for their development, and the policy and systems challenges, to build a better understanding of the Adivasi predicament. This volume, Discusses the human development challenges faced by the Adivasis in India, covering the dismal state of health, education, and nutrition in Adivasi regions; Explores key issues related to gender and development in an Adivasi context, the impact of the loss of common lands and forests on their traditional economic roles; Presents the progress made thus far in implementing PESA and FRA; Examines the current state of 'Denotified Tribes' in India, the policy response of the state post-independence, and the abrogation of the act, and discusses the immediate need for recognition of their political rights; Highlights the importance of recognising, developing, and preserving Adivasi arts, music, dance, crafts, language and literature, and knowledge systems. Companion to Tribal Development Report: Livelihoods, this book will be of great interest to scholars and researchers of indigenous studies, development studies, and South Asian studies.

Sport and Society Oct 20 2021 'This third edition of Sport and Society, with contributions from some of the field's most highly respected scholars, covers the myriad of complex, pervasive and global issues confronting sport in the 21st century. It continues to be a foundation text for students across most sport disciplines' - Russel Hoye, La Trobe University, Australia 'The third edition of Sport and Society reinforces its place as one of the most valuable texts for

students and others engaging in social scientific study of sport. Overall, the book continues to achieve an unrivalled balance between different social science disciplines that have been applied to sport; between local, national and international issues; and between broad overviews and specific detail on every topic. The end result is a book that is "a must" on many academic reading lists!' - Iain Lindsey, Durham University, UK Fully updated and revised, the Third Edition of Barrie Houlihan and Dominic Malcolm's ground-breaking *Sport and Society* provides students and instructors with a one-stop text that is comprehensive, accessible, international, and engaging. This popular book: Approaches the study of sport from a multi-disciplinary perspective Presents the importance of social structure, power, and inequality in analysing the nature and significance of sport in society Addresses the rapid commercialization and regulation of sport Engages in comparative analysis to understand problems clearly and produce sound solutions Expands students' knowledge through chapter summaries, guides to further reading, and extensive bibliographies Offers five new chapters addressing the key contemporary issues of: lifestyle sport; sport for development and peace; the governance of international sport organisations; sports fandom; and sport in East Asia. A superb teaching text, this new edition will be relished by instructors seeking an authoritative introduction to sport and society and students who want a relevant, enriching text for their learning and research needs.

The History of Cheerleading Dec 10 2020 Provides information on how cheerleading has evolved from a sideline support team to a highly competitive team sport with its own competitions.

Improving Quality of Care in Family Planning Mar 13 2021 In this book the authors review initiatives in improving the quality of care for family planning in India and bring them to the broader forum of policy-level discussions. The global Family Planning 2020 (FP2020) framework argues for voluntary rights-based family planning programmes. The rights-based approach builds on the bedrock of quality of care, which means listening to what women want, treating individuals with dignity and respect and ensuring that everyone has access to full information and high quality care. Improving the quality of care in family planning services in a country like India is crucial from individual, national and global considerations. This book critically discusses and evaluates the various interventions undertaken so far and the reasons for success and failure. It also synthesizes current research studies in India, identifies gaps and presents a research agenda to bridge this gap and accelerate progress towards improving quality of care in family planning. It presents a comprehensive framework that underscores the importance of health systems and community environments in creating enabling, motivating and empowering roles for providers and clients. The examples and perspectives presented in this

book make a strong case for adoption into policy frameworks and scaling up of quality of care efforts, and identifying research priorities for strengthening the response to family planning. This book greatly contributes towards enhancing the quality of family planning care at the grass-roots level in low resource settings and is of interest to researchers and practitioners of public health, particularly community health, maternal and child health, and social work.

Nourishing millions Apr 25 2022 The stories in this book are diverse, spanning five decades and playing out in different arenas, from local to global. They take place in developing countries all over the world, and they involve many sectors and disciplines beyond nutrition itself, including health, agriculture, education, social protection, and water and sanitation. Most importantly, they paint a nuanced picture of success as a context-specific achievement that may, or may not, endure into the future.

Contemporary Sport Marketing May 15 2021 The international nature of the sport industry requires a global approach to sport marketing practices. Fueling Young Athletes Jun 03 2020 Young athletes are always on the go. School, family, and sports eat up a lot of time. For parents and coaches, it can be a challenge to make sure kids are eating healthfully enough to perform at their best on and off the field. Fueling Young Athletes provides the help you need. In this practical guide, Heather Mangieri—a sport dietitian and mother of three active kids—breaks down the nutrition needs of young athletes and explains what the latest research suggests. You'll analyze current eating habits and preferences and how and where these can be improved. You'll learn how healthier meals and snacks can equate to improved performance while still being convenient and appetizing. Fueling Young Athletes addresses the issues that families and athletes most often face, such as late-night practices, inconvenient school lunchtimes, demanding tournament schedules and travel leagues, and lack of sleep. Best of all, you'll find a collection of easy recipes for smoothies and sport drinks, all with common ingredients and nutrition information. Weight management, supplementation, fueling, hydration—it's all here. Fueling Young Athletes is practical and realistic. If you are a parent or coach, it's the one guide you should not be without.

Injury in Pediatric and Adolescent Sports

Dec 30 2019 Providing a

state-of-the-art account of the nature, distribution and determinants of sports injury in children and adolescents, this unique volume uses the public health model to describe the scope of the injury problem and the associated risk factors and evaluate the current research on injury prevention strategies as described in the literature.

Thoughtfully divided in six sections, the nature of the young athlete and epidemiology of pediatric and adolescent sports injury are described first. Then an overview of the most common types of youth sports injuries as well as more serious injuries (e.g., concussions) and outcomes is presented, followed by a discussion of injury causation and prevention. Suggestions for future research rounds out the presentation. Each chapter is illustrated with tables which make it easy to examine injury factors between studies. Throughout, the editors and contributors have taken an evidence-based approach and adopted a uniform methodology to assess the data available. Ideal for physicians, physical therapists, athletic trainers and sports scientists alike, *Injury in Pediatric and Adolescent Sports* concisely and accurately presents the situation faced by clinicians treating young athletes and the challenges they face in keeping up with this growing and active population. Furthermore, the information in this book will be useful to allied health researchers and sport governing bodies as an informed basis for continued epidemiological study and implementation of injury prevention initiatives designed to reduce the incidence and severity of injuries encountered by young athletes.

Microbial Biofertilizers and Micronutrient Availability

May 27 2022

This volume addresses various issues related to micronutrient deficiency, especially zinc, and discusses the possible approaches for combating mineral deficiency among humans and plants. The book mainly focuses on the zinc biofortification of vegetable and cereal crops and highlights the consequences of zinc deficiency and the health risks associated with zinc deficiency, especially in children and expecting mothers. The authors discuss different types of food that are rich in zinc and other minerals, how diets can be designed to meet the daily zinc requirements, and the impact of zinc deficiency on plant health and quality of agricultural products and the role of micronutrients in abiotic stress tolerance. The book also covers sustainable approaches to zinc biofortification in crops, such as the microbial solubilization of zinc in soil to improve zinc uptake by plants, and the formulation of these microbes into biofertilizers. The book will be of interest to dieticians, agricultural scientists, students and microbiologists.

[A Gender Atlas of India](#) Jul 17 2021 A Gender Atlas of India is a seminal body of work which comprehensively maps and grades India's performance from 2001 to 2016 on issues of concern for women. Taking into account 8 overall indicators and 28 sub-indicators, it looks at how India is performing on various aspects, including sex ratio,

women's education, employment, health, political participation and representation; and prevention of crimes against women. Unlike previous attempts, this book examines the change in India's performance over a 15-year period, compares the situation of women in India to that in its neighborhood and internationally, and rates each Indian state and union territory individually. The findings in this book are both provocative and incentivizing for policymakers—they show that where the central and state governments share concerns India's performance on gender has improved, but where they diverge women's condition has deteriorated even further. With data from a range of government and independent institutions, the Census of India, Family Health Surveys, UN Statistics, World Bank data, and NGO and industry surveys, this book is an essential reference for policymakers, government departments, libraries, and individuals.

My Quest for Health Equity Dec 22 2021 My Quest for Health Equity is a vital resource for current and rising leaders.

Hunger And Malnutrition As Major Challenges Of The 21st Century Jul 05 2020 The UN's Sustainable Development Goal (SDG) for 'Zero Hunger' has refocused attention on hunger and malnutrition as major challenges for the 21st century and as essential desired goals for human development. This volume provides key insights on how these challenges for food security can be addressed globally and in a number of countries that face these challenges most acutely. According to the World Food Summit, food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life. The implication is that lack of food security would overlap with hunger — both overt and hidden — and undernutrition and would have spillover effects onto the health of and labor market performance of those affected by such insecurity. This range of issues have guided the choice of contributions to this volume. Several manifestations of these topics are covered for a number of countries in Asia and Africa.

The Business of Sports Apr 13 2021 The Business of Sports provides a comprehensive foundation of the economic, organizational, legal and political components of the sports industry. Geared for journalism, communication and business students, but also an excellent resource for those working in sports, this text introduces readers to the ever-increasing complexity of an industry that is in constant flux. Now in its third edition, the volume continues to offer a wealth of statistics and case studies, up to date with the newest developments in sports business and focused on cutting-edge issues and topics, including the many changes in international sports and the role of analytics in decision-making and tax rules that have a major effect on athletes and teams.

Sex Differences in Sports Medicine Jan 29 2020 This is the first book

dedicated to the musculoskeletal, physiological, hormonal, and other differences between the sexes as they manifest in sports medicine. Organized anatomically from head to toe, this unique reference focuses on the sex-specific differences of men and women to inform clinical care and the management of common sports injuries. Other chapters cover nutrition, hormones, concussion, pain, sports cardiology and pulmonology, and the particular care of adolescent and geriatric patients. The editors have assembled a world-class team of specialists to collaborate on each chapter, and specially commissioned illustrations and tables help visualize the data and findings. While some books focus on "the female athlete" as a discrete category, this book discusses how the many physical stresses of athletics affect both sexes based on the inherent biological differences. The goal is to foster a more comprehensive understanding of the latest research and practice in sports medicine as it applies to all patients. As the field of sports medicine has grown exponentially over the last few decades, this book will serve as an essential resource for physicians, trainers, coaches, and anyone involved in athletics and medicine. Key Features: Provides an evidence-based review of how sex differences affect the risk of injury, presentation, and clinical course of sports-related injuries Anatomically based chapters highlight differences in static structures, dynamic movement, and pathology between the sexes Authors summarize key differences at the end of each chapter Includes special chapters on running and throwing, sports cardiology, sports pulmonology, nutrition, and unique athlete populations

The Routledge Handbook of Sustainable Food and Gastronomy

Aug 25 2019

The issues surrounding the provision, preparation and development of food products is fundamental to every human being on the planet. Given the scarcity of agricultural land, environmental pollution, climate change and the exponential growth of the world's population where starvation and obesity are both widespread it is little wonder that exploring the frontiers of food is now a major focus for researchers and practitioners. This timely Handbook provides a systematic guide to the current state of knowledge on sustainable food. It begins by analyzing the historical development surrounding food production and consumption, then moves on to discuss the current food crisis and challenges as well as the impacts linked to modern agriculture and food security. Finally, it concludes with a section that examines emerging sustainable food trends and movements in addition to an analysis of current food science innovations. Developed from specifically commissioned original contributions the Handbook's inherent multidisciplinary approach paves the way for deeper understanding of all aspects linked to the evolution of food in society, including insights into local food, food and tourism, organic food, indigenous and traditional food, sustainable restaurant practices, consumption patterns and sourcing. This book is essential

reading for students, researchers and academics interested in the possibilities of sustainable forms of gastronomy and gastronomy's contribution to sustainable development. The title includes a foreword written by Roberto Flore, Head Chef at the Nordic Food Lab, Copenhagen, Denmark.

Organized Activities As Contexts of Development Jan 11 2021 School-aged children in the U.S. and other Western nations spend almost half of their waking hours in leisure activities. For some, out-of-school time is perceived as inconsequential or even counterproductive to the health and well-being of young persons. Recently, however, there has been a growing recognition that--along with family, peers, and school--the organized activities in which some youth participate during these hours are important contexts of emotional, social, and civic development. They provide opportunities for young persons to learn and develop competencies that are largely neglected by schools. At the same time, communities and national governments are now channeling considerable resources into creating organized activities for young people's out-of-school time. This volume brings together a multidisciplinary, international group of experts to provide conceptual, empirical, and policy-relevant advances in research on children's and adolescents' participation in the developmental contexts represented by extracurricular activities, and after-school and community programs. Organized Activities as Contexts of Development provides a handbook-like coverage of research in this new emerging field. It considers a broad developmental time-span from middle childhood through early adulthood, providing information on how motivation, participation, and developmental experiences change as youth get older. The contents cover one of the most salient topics in child and adolescent research, education, and social policy, placing consistent emphasis on developmental aspects and implications of organized activity participation for young persons. Representing contributors from several fields of study--psychology, criminal justice, leisure science, sociology, human development, education, prevention, and public policy--the book is designed to appeal to students and scholars in all these areas. Additionally, the volume is written to be of interest to professionals who administer programs and develop policy on youth.

Interior, Environment, and Related Agencies Appropriations for 2016, Part 7, 2015, 114-1 Apr 01 2020

Undernutrition and Public Policy in India Aug 18 2021 Despite substantial economic growth, India has one of the highest undernutrition rates in the world; it is home to almost 40 per cent of the world's stunted children. This volume assesses the status and causes of undernutrition in the country, and examines the effectiveness of policies designed to address undernutrition. The essays tackle wide-ranging themes and challenging issues including

nutrition; water, sanitation and hygiene (WASH); maternal, neonatal and child health; Integrated Child Development Services (ICDS); Public Distribution System (PDS); crop procurement; and National Food Security Act 2013. With contributions from leading academic researchers, policymakers, as well as civil society representatives, this volume will be indispensable to scholars, teachers and students of public policy, development economics, development sociology, and Indian economy. It will also be useful to government institutions, think tanks and NGOs.

Social Issues in Sport Aug 30 2022 Social Issues in Sport, Third Edition, explores common questions and issues about sport and its relation to society through various sociological and cultural lenses. Author Ronald Woods draws on a lifetime in sport as a participant, observer, fan, teacher, coach, administrator, and critic to explore historical perspectives and complex relationships that have emerged between sport and our modern society. The text's engaging writing style, full-color design, and ample learning tools keep students engaged. Social Issues in Sport, Third Edition, remains grounded in practical application and follows the framework of the previous editions to provide social theories through which students may examine real-world issues. Updated statistical information allows students to analyze trends in participation, popularity, gender, race, and class as they relate to sport. The third edition also features the following enhancements:

- New "Applying Social Theory" activities in each chapter that foster an understanding of social theories that ground the subject area
- Updated "Activity Time-Out," "Expert's View," "Pop Culture," and "In the Arena With . . ." sidebars that offer a contemporary context to which students can apply the concepts in the text
- Increased emphasis on emerging issues such as sport for development and peace as well as the growing role of electronic media
- Updated instructor ancillaries that provide assistance in lecture preparation and give instructors new ways to engage students and reinforce concepts found throughout the text

Social Issues in Sport, Third Edition, is divided into four parts, maintaining the student-friendly format and accessibility of previous editions. Part I presents the framework for study through defining terms and presenting six crucial social theories that are used throughout the rest of the text. Part II addresses various forms of participation in sport, from spectator to participant, recreational to professional, and explores sport marketing and commercialization, as well as the close relationship between sport and media. In part III, the role of sport programs and player development, from youth to intercollegiate, as well as the crucial role of sport coach and its many responsibilities. Part IV delves into sport and culture, focusing on social classifications and their powerful effects on sport participation. Ancillary materials are available to aid instructors using this text

in the classroom. An updated instructor guide includes chapter summaries, student objectives, chapter outlines, and additional student activities. A test package, chapter quizzes, and presentation package provide instructors with support for lecture preparation and tools to ensure that students remain engaged. *Social Issues in Sport, Third Edition*, provides the foundations for examining the multifaceted roles of sport and physical activity in society and for studying sport from a critical perspective. The information and many activities used throughout the text invite students to understand and evaluate the sociocultural issues raised by sport and relate these themes to their own lives. Through this in-depth examination of sociocultural issues, students will be able to understand and appreciate the development of sport as a part and reflection of the development of society.

Globalized Sport Management in Diverse Cultural Contexts

Cross-cultural management is an important facet of the globalized sport industry. Sport managers must be skilled at working with individuals from diverse cultures and aware of the key issues affecting sport on a global level. This book brings together cutting-edge research from leading sport scholars from around the world, to illuminate some of those important issues and to demonstrate what cross-cultural management looks like in a sporting context. Presenting case studies from countries as diverse as the US, Brazil, Poland and Venezuela, and across a range of sports from football to basketball, the book presents new empirical material derived from a range of inquiry protocols, including both qualitative and quantitative methods. It offers critical analyses of cross-cultural and managerial issues in key areas such as group cohesiveness, group communications, and misperception and misinterpretation. Making an important contribution to our understanding of both theory and practice in sport management, this book is fascinating reading for any student, researcher or practitioner with an interest in global and international sport.

Communication, Second Edition, presents a standard framework that introduces readers to the many ways in which individuals, media outlets, and sport organizations work to create, disseminate, and manage messages to their constituents.

Women in Sports Coaching Nov 08 2020 Women in many Westernized countries encounter a wider variety of career opportunities than afforded in previous decades, and the percentage of women leaders in nearly every sector is on the rise. Sport coaching, however, remains a domain where gender equity has declined or stalled, despite increasing female sport participation. The percentage of women who coach women are in the minority in most sports, and there is a near absence of women coaching men. This important new book examines why. Drawing on original multi-disciplinary research from across the globe, including first-hand accounts from practicing coaches, the book illuminates and examines the status of women in coaching, explores the complex issues they face in pursuing their careers, and suggests solutions for eliminating the barriers that impede women in coaching. Developing an innovative model of intersectionality and power constructs through which to guide research, the book covers issues including sexual identity, race, motherhood, cross-gender coaching and media coverage to give voice to women coaches from around the world. As such, Women in Sports Coaching is essential reading for serious students and scholars of sports coaching, sport sociology or anyone with an interest in gender and sport.
