Competing for the Future Oct 12 2020 New competitive realities have ruptured industry boundaries, overthrown much of standard management practice, and rendered conventional models of strategy and growth obsolete. In their stead have come the powerful ideas and methodologies of Gary Hamel and C.K. Prahalad, whose much-revered thinking has already engendered a new language of strategy. In this book, they develop a coherent model for how today's executives can identify and accomplish no less than heroic goals in tomorrow's marketplace. Their masterful blueprint addresses how executives can ease the tension between competing today and clearing a path toward leadership in the future.

Zulu Zulu Golf Feb 25 2022 'There is no dignity in death. Six bodies are piled up in front of me, shot to shit. I can see that their bones are white, their blood is red and their brains are yellow. I've done this; I've helped to kill them.' A unit of the South African Police, Koevoet was the most deadly fighting force involved in the Border War. This is the story of Arn Durand's first years with Koevoet, from 1982 to 1983. Through his eyes, the madness, mayhem and complexity of war come alive as he describes patrols, ambushes and contacts, situations of certain death, dealings with the enemy and relationships with his Ovambo colleagues. A powerful account of extreme experiences, the book shows what it took to survive combat in the hostile environments of Namibia and Angola. Zulu Zulu Golf does not glorify war. It simply relates, in deadpan style, what it was like to be a killing machine in the heat of battle.
