Europäische Musiker in Venedig, Rom und Neapel 1650-1750 Aug 29 2019 Der Abschlussband des deutsch-französischen ANR-DFG-Projekts MUSICI widmet sich der Musikermigration im Europa der Frühen Neuzeit mit einem kultur- und musikgeschichtlichen Blick auf Venedig, Rom und Neapel als Reiseziele und Wirkungsorte von Instrumentalisten, Sängern, Komponisten und Instrumentenbauern, die nicht von der italienischen Halbinsel stammten. Im Sinne einer "histoire croisée" werden Netzwerke, Integrations- und Austauschprozesse aufgedeckt, mit denen fremde Musiker zwischen musikalischem Alltag und herausragenden Festlichkeiten konfrontiert waren. Auf dieser Grundlage wird eine systematische Betrachtung der frühneuzeitlichen Musikermigration sowie eine Untersuchung musikalischer Stile jenseits nationaler Forschungstraditionen möglich.

Seneca the Elder and His Rediscovered >Historiae ab initio bellorum civilium< Dec 02 2019 The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi’s recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal’s intuition that one of them had to be ascribed to a certain ‘Annaeus Seneca’. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal’s intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder’s *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder’s *Historiae* greatly contribute.

A Cena Con Fluffy Mar 05 2020 Tempesta's stories explore complexities that are both profound and profoundly human, for example in cultural differences between life in the USA and in Italy. Most of his stories ask the reader to consider such questions as whether friendship possesses substance beyond illusion, and whether new life and new joy can emerge from surrender to aestheticized memories. Translating short stories is an arduous task but he succeeded in recreating in English, the emotional impact of his original stories in Italian. The importance of his writing lies in his capacity to generate dialogue. A reader must actively engage his texts, not to arbitrarily construct meaning, but to capture the abundance of subtlety and nuance that his work evokes. His prose (just like his poetry) does not ask to be received or decoded. Rather, it asks the reader to reflect on it and converse with it.

"Dig where you stand" 4 Feb 02 2020 The Fourth International Conference on the History of Mathematics Education was hosted by Academy of Sciences and University of Turin (Italy). About 50 senior and junior researchers from 16 countries met for four days to talk about one topic: the history of mathematics education. In total 44 contributions were presented. The themes were Ideas, people and movements, Transmission of ideas, Teacher education, Geometry and textbooks, Textbooks – changes and origins, Curriculum and reform, Teaching in special institutions, and Teaching of geometry. In this volume you find 28 of the papers, all of them peer-reviewed. Since the first international conference on the history of mathematics education, the aim has been to develop this area of research, to attract more researchers and provide new insights that stimulate further “digging”. It is therefore very pleasing that so many new young researchers joined the conference, presenting results from ongoing or recently finished PhD projects. This makes us confident about a prosperous future of this research area as we look forward to the Fifth International Conference on the History of Mathematics Education, to be held in Utrecht, the Netherlands, in September 2017. Previous international conferences on the history of mathematics education: 2009 in Garðabær (Iceland) 2011 in Lisbon (Portugal) 2013 in Uppsala (Sweden)

Printed Media in Fin-de-siecle Italy Jul 29 2019 "The Unification of Italy in 1870 heralded a period of unprecedented change. While successive Liberal governments pursued imperial ventures and took Italy into World War One on the Allied side, on the domestic front technological advance, the creation of a national transport network, the expansion of state education, internal migration to cities and the rise of political associations all contributed to the rapid expansion of the print industry and the development of new and highly diversified reading publics. Drawing on publishers'archives, letters, diaries, and printed material, this book provide the most up-to-date research into the printed media - books, magazines and journals - in Italy between 1870 and 1914. With essays on publishers and reading communities, the professionalization of the role of journalist and writer, children's literature, book illustrations, and printed media in colonial territories among others, this book is intended for those with interests in cultural production and consumption and questions of nation-formation and nationhood in and outside Italy. Media Matter Sep 10 2020 This volume discusses a broad range of themes and methodological issues around images, photography and film. It is about sharing a fascination about the

visual history of education and how images became the most influential (circulating) media within the field of education on local, regional, national and international levels. Within this volume images are primarily analyzed as presenters, mediators, and means of observation. Images are seen as mobile reproducible media which play an active role within the public and educational sphere. They are means of observation and storytelling, they shape identities by presenting models of how we should act in and perceive the world, they circulate through different contexts and media, all of which impacts their meanings.
