Austria-Hungary & the Successor States 2020 Presents a short history of Austria, Hungary, Czechoslovakia, and Yugoslavia from the Renaissance to the present followed by an A to Z dictionary of important people, a chronology, maps, and more.

Parry Sound Nov 12 2020 Parry Sound, at the mouth of the Seguin River on Georgian Bay, traces its history back to William Beatty Jr. and the purchase of timber rights. From the heyday of lumber through mining ventures, the period of Prohibition, the arrival of the railway and the impact of the Great Wars, the unfolding years are all accompanied by an intriguing mixture of colourful personalities, politics and scandal. The story of this growing community has a richness that few Ontario towns can match. Today Parry Sound embraces its entrepreneurial heritage, its hockey history, its commitment to the arts and its place as a popular tourist destination.

Bridge Maintenance, Safety, Management, Resilience and Sustainability 2020 Bridge Maintenance, Safety, Management, Resilience and Sustainability contains the lectures and papers presented at The Sixth International Conference on Bridge Maintenance, Safety and Management (IABMAS 2012), held in Stresa, Lake Maggiore, Italy, 8-12 July, 2012. This volume consists of extended abstracts (800 pp) and a DVD (4057 pp) containing the full text of the papers.

CA-84 Realignment Project, Improvement Between CA-84 from I-880 to CA-238/Mission Boulevard Cities of Fremont, Hayward, and Union, Alameda County 2022

Arms Control Sep 30 2019 `A unique and indispensable work that serves both as a basic introduction to the disarmament scene and a reference book for experts? - Disarmament Times `This comprehensive history and achievements of arms control and disarmament efforts is unique in its kind and is likely to remain so. This for three reasons: first, because of its unparalleled comprehensiveness; second, because of the outstanding quality of its presentation, and, third, because of its author, Jozef Goldblat, one of the world's leading experts in the field. This triad makes the updated Second Edition of Arms Control

New Guide to Negotiations and Agreements a must for all concerned with international security and arms control in particular? - Curt Gasteyger, Graduate Institute of International Studies, Geneva
The thesaurus of arms regulation and disarmament...a precious tool for negotiators and decision makers? - Ambassador V Petrovsky, Former Secretary-General of the Conference on Disarmament
Being the most comprehensive and authoritative compilation and analysis of arms control agreements available, this is an indispensable reference volume for students and practitioners of arms control and international security. The author has spent a lifetime in the study and practice of international affairs: where international law and arms control agreements are concerned, there is no one more qualified than him? - Sverre Lodgaard, Norwegian Institute of International Affairs, Oslo
The revised and updated edition of Arms Control: The New Guide to Negotiations and Agreements contains an authoritative and comprehensive survey ever published of the documents related to arms control and major agreements reached since the second half of the nineteenth century through to mid-20th century, critically analysed and assessed. The assessment is made in the light of the international security environment, the developments in the field of weapon technology, the threat of nuclear, chemical and biological weapons proliferation, and the efforts to strengthen the humanitarian law of armed conflict. The accompanying CD-ROM reproduces full text and carefully selected excerpts of treaties, conventions, common understandings, statutes, charters, binding decisions of international bodies and acts of international conferences, exchanges of letters and diplomatic notes. Multilateral agreements are followed by a list of parties. Enriched with new maps, tables and figures, as well as an expanded glossary and bibliography, the book will remain the definitive resource for students of international relations, journalists, diplomats and military strategists. Jozef Goldblat, the author, is Vice-President of the Geneva International Peace Research Institute (GIPRI), Resident Senior Fellow of the UN Institute for Disarmament Research (UNIDIR) and Associate Editor of Security Dialogue, published by SAIS, the International Peace Research Institute, Oslo (PRIO). He has studied the problems of arms control since the 1950s and has been involved in arms control negotiations. From 1969 to 1989 he directed the arms control and disarmament programme of studies at the Stockholm International Peace Research Institute (SIPRI). He has lectured at various universities and has written reports, articles and books on the arms race and disarmament. His latest publications include The Nuclear Non-Proliferation Treaty: Assessment and Prospects, The Hague Academy of International Law, 1997, and Nuclear Disarmament: Obstacles to Banishing the Bomb, I. B. Tauris, 2000.

Proposed Route I-880 Replacement Project from I-980 Interchange to I-80/I-580/I-880 District Structure in the Cities of Oakland and Emeryville, Alameda County, California 2022

IBM Power E1080 Technical Overview and Introduction 2021 This IBM® Redpaper® publication provides a broad understanding of a new architecture of the IBM Power® E1080 (known as the Power E1080) server that supports IBM AIX®, IBM i, and selected distributions of operating systems. The objective of this paper is to introduce the Power E1080, the most powerful and scalable server of the IBM Power portfolio, and its offerings and relevant functions: Designed to support up to four system nodes and up to 240 IBM Power10™ processor cores The Power E1080 can be initially ordered with a single system node or two system nodes configuration, which provides up to 60 Power10 processor cores with a single node configuration or up to 120 Power10 processor cores with a two system nodes configuration. More support for a three or four system nodes configuration will be added on December 10, 2021, which provides support for up to 240 Power10 processor cores in a full combined four system nodes server. Designed to support up to 64 TB memory The Power E1080 can be initially ordered with the total memory RAM capacity up to 8 TB. More support is to be added on December 10, 2021 to support up to 64 TB in a full combined four system nodes server. Designed to support up to 32 Peripheral Component Interconnect® (PCIe) Gen 5 slots in a full combined four system nodes server.

system nodes server and up to 192 PCIe Gen 3 slots with expansion I/O drawers The Power supports initially a maximum of two system nodes; therefore, up to 16 PCIe Gen 5 slots, and PCIe Gen 3 slots with expansion I/O drawer. More support is to be added on December 10, 2021 support up to 192 PCIe Gen 3 slots with expansion I/O drawers. Up to over 4,000 directly attached serial-attached SCSI (SAS) disks or solid-state drives (SSDs) Up to 1,000 virtual machines (VMs) logical partitions (LPARs) per system System control unit, providing redundant system master Service Processor (FSP) Supports IBM Power System Private Cloud Solution with Dynamic Capabilities This publication is for professionals who want to acquire a better understanding of Power server intended audience includes the following roles: Customers Sales and marketing professionals Technical support professionals IBM Business Partners Independent software vendors (ISVs) This paper is intended to replace the current marketing materials and configuration tools. It is intended as an extra source of information that, together with existing sources, can be used to enhance your knowledge of Power solutions.
