The Doctor Faustus Dossier Feb 09 2021 Arnold Schoenberg and Thomas Mann, two towering figures of twentieth-century music and literature, both found refuge in the German-exile community in Los Angeles during the Nazi era. This complete edition of their correspondence provides a glimpse inside their private and public lives and culminates in the famous dispute over Mann's novel Doctor Faustus. In the thick of the controversy was Theodor Adorno, then a budding philosopher, whose contribution to the Faustus affair would make him an enemy of both families. Gathered here for the first time in English, the letters in this essential volume are complemented by diary entries, related articles, and other primary source materials, as well as an introduction by German studies scholar Adrian Daub that contextualizes the impact these two great artists had on twentieth-century thought and culture.

1493 for Young People Oct 08 2020 1493 for Young People by Charles C. Mann tells the gripping story of globalization through travel, trade, colonization, and migration from its beginnings in the fifteenth century to the present. How did the lowly potato plant feed the poor across Europe and then cause the deaths of millions? How did the rubber plant enable industrialization? What is the connection between malaria, slavery, and the outcome of the American Revolution? How did the fabled silver mountain of sixteenth-century Bolivia fund economic development in the flood-prone plains of rural China and the wars of the Spanish Empire? Here is the story of how sometimes the greatest leaps also posed the greatest threats to human advancement. Mann's language is as plainspoken and clear as it is provocative, his research and erudition vast, his conclusions ones that will stimulate the critical thinking of young people. 1493 for Young People provides tools for wrestling with the most pressing issues of today, and will empower young people as they struggle with a changing world. *Mann's Surgery of the Foot and Ankle E-Book* Nov 20 2021 Let a "who's who" of foot and ankle surgeons take your skills to the next level! Death in Venice Oct 27 2019 Although Mann is considered to be a deeply German writer, at the time that he began writing, Germany itself was fairly new to the world. When *Death in Venice* was published in 1912, a unified Germany had existed for a mere 41 years. Although Mann moved to Munich after high school, he was always aware of being North German and felt his more somber and serious artistic sense put him at odds with other artists in Munich. The connection between Germany and Italy in his work has clear political relevance, as the two countries unified their fragmented areas to become nations at similar points of time in history (King Victor Emmanuel began to rule over a unified Italy in 1861). Mann wrote in the context of a number of literary styles. At the turn of the century, Naturalism reigned, and Mann sought to differentiate himself from writers such as Zola and Ibsen who faithfully transcribed even the most minute concrete details of daily life. In contrast to naturalist writers, Mann's precision is psychological, rather than physical. Specifically, Mann was influenced by other European masters including Tolstoy, whose epic sweep he admired, and Flaubert, whose labor over each and every sentence he emulated. Mann was also deeply indebted to the philosophy of Nietzsche, whose skeptical mode of analysis he adopted. Nietzsche claimed to be a great authority on the subject of decadence, and Mann's works focus almost exclusively on this topic, along with degeneracy and the decline of greatness.

Antisemitism Jun 15 2021 'The Jewish people in its very being constitutes a living protest against a world of hatred, violence and war' Emeritus Chief Rabbi, Lord Sacks The history of Jewish persecution is as old as the written word, though the epithet 'antisemitism' was only conceived in the late nineteenth century as it reached the beginning of its most horrifying chapter. Throughout Christian history the hatred and prejudice towards the Jewish people have often been blamed on the betrayal and crucifixion of Christ, but ethnic Jewish oppression began long before. It is beyond dispute that antisemitism in our societies is on the increase. Following the Israeli bombing of Gaza, antisemitic feeling has grown significantly - though a prominent group of French Orthodox Jews in Paris recently demonstrated with placards saying 'Israeli action in Gaza is not the action of the Jewish people'. Yet still Jewish graves are desecrated and Synagogues daubed with swastikas. John Mann has assembled a Reader on the theme of antisemitism ranging from the writings of Charlie Chaplin, Albert Einstein and Jean-Paul Sartre to George Washington, Jesse Jackson and Emile Zola. The book is published under the auspices of the 'All-Party Parliamentary Group Against Anti-Semitism' and will come to be seen as a contribution of major importance on a subject of incipient lethal danger.
