Laws of UX Jun 22 2019 An understanding of psychology—specifically the psychology behind how users behave and interact with digital interfaces—is perhaps the single most valuable nondesign skill a designer can have. The most elegant design can fail if it forces users to conform to the design rather than working within the "blueprint" of how humans perceive and process the world around them. This practical guide explains how you can apply key principles in psychology to build products and experiences that are more intuitive and human-centered. Author Jon Yablonski deconstructs familiar apps and experiences to provide clear examples of how UX designers can build experiences that adapt to how users perceive and process digital interfaces. You'll learn: How aesthetically pleasing design creates positive responses The principles from psychology most useful for designers How these psychology principles relate to UX heuristics Predictive models including Fitts's law, Jakob's law, and Hick's law Ethical implications of using psychology in design A framework for applying these principles

Principles of Marketing Jul 28 2022 Principles of Marketing takes a practical, managerial approach to marketing. Continuing with tradition, it is rich in topical examples and applications that show the major decisions that marketing managers face in their efforts to balance an organisation's objectives and resources against needs and opportunities in the global marketplace. The Fourth Edition has changed to reflect marketing's ever changing challenges. All preview cases, marketing insights and end of chapter cases are revised or completely changed to embrace the growth in e-commerce. In addition, recognising Europe's internationalism and the growth of globalisation, examples and cases are drawn, not from Europe alone, but from the US, Japan, South-East Asia and Africa. This is suitable for any undergraduate or postgraduate undertaking an introductory course in marketing.
