Slow Wine Guide USA 2021 Oct 12 2020 With a total of 285 wineries reviewed from California, Oregon and now from New York and Washington states, the 2021 edition of the Slow Wine guide USA covers more ground than ever before. For the first time, the 2021 edition stands as an individual publication devoted to US producers. The idea behind Slow Wine is straightforward: it acknowledges the unique stories of people and vineyards, of grape varieties and landscapes, and of their wines. The knowledge that wine is more than just liquid in a glass helps wine lovers make better, more conscious choices and enhances the very enjoyment of these products. Since its beginnings in Italy eleven years ago, Slow Wine has combined its tasting sessions with equally important moments of exchange and debate with producers. In doing so, we're bringing you the most up-to-date information about what's happening at the wineries within our pages. We're thrilled to see the guide finding fertile ground in the USA. Our incredible team of wine experts has once again teamed up to bring you our fourth edition, Slow Wine 2021 - a year in the life of the vineyards and wines of the USA.

Slow Recoil Jun 19 2021 Short-listed for the 2011 Arthur Ellis Award for Best Crime Novel Some bullets take years to find their mark... Former Toronto Detective Charlie McKelvey is puttering through the first year of his forced retirement. His tedious life is torn wide open when a friend enlists his help in locating a recent Bosnian immigrant who has simply disappeared without a trace. Her teacher and recent lover, Tim Fielding, suspects foul play. At first hesitant, McKelvey is quickly drawn into the case as the bodies and clues pile up. When the body of an unidentified woman turns up in Fielding's apartment and Fielding is nowhere to be found McKelvey finds himself a prime suspect in an increasingly obscure murder investigation.

Go Slow Oct 04 2022 It has been said that the records of singer and actress Julie London were purchased for their provocative, full-color cover photographs as frequently as they were for the music contained in their grooves. During the 1950s and 1960s, her piercing blue eyes, strawberry-blond hair, and shapely figure were used to sell the world an image of cool sexuality that stoked the fevered dreams of many men. The contrast between that image and reality, the public and the private, is at the heart of Julie London's story. Through years of research, extensive interviews with family, friends, and musical associates, and access to rarely seen or heard archival material, author Michael Owen reveals the impact that her image had on the direction of her career and how it influenced the choices she made, including the decision to walk away from performing. *Go Slow* follows Julie London's life and career through its many stages: her transformation from 1940s movie starlet to the coolly defiant singer of the classic torch ballad "Cry Me a River" of the 1950s, and her journey from Las Vegas hotel entertainer during the rock and roll revolution of the 1960s to the no-nonsense nurse of the 1970s hit television series *Emergency!*

TV Creators Aug 10 2020 *ER*, *Law & Order*, and *The Sopranos* are just a few of the dramas that launched a new era of television at the turn of the millennium. *TV Creators* gives scholars and fans alike an exclusive, firsthand account of the lives, philosophies, and contributions of the writers and producers responsible for these and other outstanding prime time programs. James Longworth affords twelve outstanding creators of television drama an open, uncensored forum in which they discuss everything from their work ethic to the political and social issues affecting the television industry.

Finding Faith in Slow Motion Jul 01 2022 Faith is neither static nor instantaneous. It is not something we stumble upon and instantly understand. Neither is it a monolithic, one-dimensional, singular entity that has but one face, one color, one fragrance. It is many-faceted, multi-dimensional, and appears differently depending on one's angle to the Son. In *Finding Faith in Slow Motion*, Damon Gray examines faith from myriad angles and through gut-wrenching life experiences, as he asks regarding faith, "What is that stuff?" Spanning the emotional gamut from laughter to tears, Gray challenges us to define our faith and redefine it, to look at it from a multitude of perspectives and define it again. The writing is intentionally evocative and playful, offering the reader the ability to identify with Gray as he wrestles with the weighty subject matter of finding faith.

The Great American Slow Cooker Book Jun 27 2019 The ultimate in slow-cooker books--with 500 recipes, each adapted for three sizes of appliance. From breakfast to soups, mains to grains, vegetables to desserts, this guide is the only book you'll ever need to master your slow cooker or crockpot. Millions of people are turning to slow cookers for their weeknight meals yet often can't find recipes that match their exact machine. Adapting recipes meant for a different-size cooker doesn't work--getting the right level of spice in your Vietnamese soup or keeping pulled pork tender requires having ingredients in the right proportion. But now, Bruce Weinstein and Mark Scarbrough have decoded slow cookers, and each of their recipes includes ingredient proportions for 2-3 quart, 4-5 quart, and 6-8 quart machines, guaranteeing a perfect fit no matter what machine you own. Each recipe is labeled for its level of difficulty and nutritional value, and they cover every kind of dish imaginable: delicious breakfast oatmeals, slow-braised meats, succulent vegetables, sweet jams and savory sauces, decadent desserts. This is the slow cooker book to end them all.

Slow Burn Sep 03 2022 An organization called The Cleaners is making threats, just days before the Australia Day holiday in Sydney. The year before, an Aboriginal protester was murdered. Lost in the emotional quicksand of a marital breakup, journalist Alex Tolman finds himself caught up in the events. Written with page-turning energy, but with a flair that allows the reader to linger and savor, this intricately plotted novel is a cross-weave of romantic discord, family dysfunction, class tension, and Indigenous politics. *Slow Burn* is

a work of crackling literary fiction that lays aspects of the thriller over the bones of a ghost story. It is a gritty, contemporary political work based on race politics and framed within a crime and corruption genre novel.

The Magazine Century Sep 10 2020 "Taking a page from the legendary magazine publisher Henry Luce, who termed the twentieth century 'the American century,' David E. Sumner aptly adapts his magazine history book and names it *The Magazine Century*. The book scans the magazines of the twentieth century and provides the reader with a carefully crafted buffet of historical nuggets---enough to engage its audience with an amazing experience that leaves them satisfied and wanting more at the same time. The love affair with magazines that this book offers is a historical asset to anyone thinking of starting, studying, or even dreaming about launching a new magazine. It is the cornerstone of our past, from which we can live our present and better prepare for our future. A must-read for anyone who ever doubts the power of magazines and their place in our history."---Samir Husni, Professor of Journalism and Director, Magazine Innovation Center, University of Mississippi --

Slow Travel: The Chilterns & the Thames Valley Oct 31 2019 This new title from Bradt forms part of its distinctive 'Slow Travel' series and is the only title available to cover the Chilterns and Thames Valley in depth. The Chilterns and the Thames Valley do not correspond to the specific boundaries of one county or region, old or new. Bedfordshire, Berkshire, Buckinghamshire, Hertfordshire and Oxfordshire all have a share. Divided into six easily manageable sections, Bradt's *The Chilterns and Thames Valley* lifts the lid on what makes this area so distinctive. Chalk grasslands, beech woods, streams and wooded valleys provide a perfect landscape for walking and are easily accessible from London. About half of the area has been designated as an Area of Outstanding Natural Beauty - the closest such area to London. Rare plants such as fleawort and numerous orchid varieties, and birds including red kites, lapwings and skylark flourish. The Thames Valley follows the route of one of the world's most famous rivers. You can find key sites of monarchical and parliamentary power such as Windsor Castle and Chequers, the location of Magna Carta's sealing at Runnymede and the birthplaces of men and women who have led dissent down the ages. A host of well-loved authors has lived and written here, depicting Paradise, defining our childhoods and painting timeless images of England and its people. Eminent chefs own restaurants with national and sometimes international reputations. In short, the Chilterns and the Thames Valley together represent a wonderfully paradoxical mixture of world-famous tourist sites and lesser-known attractions full of quirkiness and character, which will repay the visitor's interest and attention many times over. From Windsor Castle to Whipsnade Zoo, Britain's oldest road - The Ridgeway - to National Trust properties such as Cliveden and Waddesdon Manor, the Henley Regatta to the Grand Union Canal, Bradt's *The Chilterns and Thames Valley* is the perfect companion.

The BetterPhoto Guide to Exposure Mar 17 2021 Exposure. It's essential to producing high-quality photographs, but mastering exposure is difficult. At last there's a BetterPhoto guide to exposure, packed with BetterPhoto's signature assignments,

Slow TV Nov 05 2022 Slow TV has become a familiar feature of broadcasting in Norway. It refers to a set of programmes produced by the Norwegian Broadcasting Corporation (NRK) since 2009, starting out with a seven-hour broadcasting of the train ride between Bergen and Oslo. The concept of slow TV and 'minute-by-minute' broadcasting was developed so that the event on television lasts as long as in real time. Several broadcasters outside Norway, including BBC Four, YLE, SRF and Netflix, have now taken up the concept of slow TV. The first study of this genre, this highly original book explores three different aspects of the phenomenon of slow TV: the perspective of the broadcaster, the perspective of the producers and other actors involved in the production of the programme, and that of the audience. It goes beyond the question of genre and considers how slow TV fits into television scheduling and how the audience appeal can be understood within broader concepts such as media events, media tourism, reception and national identity. Public service broadcasters can be seen as having more opportunity to experiment, and slow TV can be seen as a good example of public service programming. What attracts viewers to the programmes is that they invite a contemplative mode of watching: there is a chance to see something unexpected, or to be introduced to interesting new things. Illustrated throughout in full colour, using stills from broadcast programmes. This book will appeal primarily to an academic readership, both researchers and students. Most readers are likely to be involved with media and communication studies, cultural studies and film studies. It will also be of interest more generally to the humanities and social sciences fields as it touches on topics such as national and local identity, popular culture, Nordic lifestyle, well-being, tradition, community and popular culture.

Slow Burn Aug 02 2022 A sinister plan ignites not-so-spontaneous combustions in an explosive thriller from the New York Times–bestselling author of the Stillhouse Lake novels. A prostitute's client in Dallas. A jogger in El Paso. A pastor in Louisiana. Across the South and Southwest, middle-aged men are bursting into flames. In the Office of Environmental Hazards, one man is on the case. His initial observations point to something in the drinking water. But intelligence agents suspect something much more ominous: terrorism. Someone somewhere has come up with a diabolic weapon that could attract millions of dollars from the most dangerous people in the world, those with no conscience, no loyalty, no morality. And two women in Dallas—a sex worker and a thief—find themselves thrust into the middle of a conflagration that could raze everything in its path . . . Praise for Rachel Caine “A first-class storyteller who can deal out amazing

plot twists as though she was dealing cards.” —Charlaine Harris, New York Times—bestselling author of

The Winner of the Slow Bicycle Race Jan 15 2021 The Winner of the Slow Bicycle Race collects all Krassner's most recent stories, as well as his most famous satirical pieces from past years. The book is Swiftian in intention and contemporary in subject matter. It reveals Krassner to have the heart of a muckraker and the spirituality of a seeker after truth. But get ready! On the surface, Krassner's writings seamlessly blend factual reporting and suggestive misstatement. "The truth," says Krassner, "is Silly Putty;" and "cultural anarchy is freedom of speech." Kneading fantasy into reality, Krassner ferrets out the higher truths that spotlight the absurdity all around. In Krassner's world, Lyndon Johnson chuckles over the corpse of JFK, a psychiatrist hypnotically regresses a woman who shot her television set, and Nancy Reagan's "Just say no to drugs" becomes "If anybody tries to sell you an ounce of marijuana for \$500, that's way too expensive, so just say no."

Adaptive and Personalized Semantic Web May 19 2021 Web Personalization can be defined as any set of actions that can tailor the

Web experience to a particular user or set of users. To achieve effective personalization, organizations must rely on all available data, including the usage and click-stream data (reflecting user behaviour), the site content, the site structure, domain knowledge, as well as user demographics and profiles. In addition, efficient and intelligent techniques are needed to mine this data for actionable knowledge, and to effectively use the discovered knowledge to enhance the users' Web experience. These techniques must address important challenges emanating from the size and the heterogeneous nature of the data itself, as well as the dynamic nature of user interactions with the Web. These challenges include the scalability of the personalization solutions, data integration, and successful integration of techniques from machine learning, information retrieval and filtering, databases, agent architectures, knowledge representation, data mining, text mining, statistics, user modelling and human-computer interaction. The Semantic

Web adds one more dimension to this. The workshop will focus on the semantic web approach to personalization and adaptation. The Web has been formed to be an integral part of numerous applications in which a user interacts with a service provider, product sellers, governmental organisations, friends and colleagues. Content and services are available at different sources and places. Hence, Web applications need to combine all available knowledge in order to form personalized, user-friendly, and business-optimal services.

A TV Guide to Life Mar 05 2020 Read Jeff Alexander's posts on the Penguin Blog. A couch potato's book of wisdom— 100% commercial free! Some say that entire generations of Americans are being raised by the television...like that's a bad thing. Not so, says author Jeff Alexander, long-time television writer, advocate of education by television, and recapper for the popular website Television Without Pity. Here, he offers the ultimate in life lessons as seen on TV. Topics include: • Saved by the Bell: School on TV • Somebody Save Me: Super Powers and Magic Spells • Tell Me Why I Love You Like I Do: Relationships on TV • Making A Living: The Workplace • And more With a smart, snarky style, Alexander guides readers through important lessons gleaned from years of TV reviewing (now in convenient book form!), freeing up a whole new generation to learn other things, like how to cure cancer or solve world hunger...or anything more useful than watching TV (Author's note: Just joking... there is no such thing).

Pulling Newspapers Apart Dec 14 2020 *Pulling Newspapers Apart: Analysing Print Journalism* explores contemporary UK national and local newspapers at a significant and pivotal moment in their development when some pundits are busily, if mistakenly, announcing their demise. The book offers a detailed examination of features which

previous studies have tended to neglect, such as editorial formats (News, Op Ed pages, readers' letters, cartoons, obituaries, advice columns, features and opinion columns), aspects of newspaper design (page layout, photographs, supplements, online editions, headlines, the emergence of the compact and Berliner editions), newspaper contents (sport, sex and Page 3, royalty, crime, moral panics and politics) as well as the content of newspapers which is not generated by in house journalists (advertising, TV listings, horoscopes, agency copy and public relations materials). This innovative and accessibly written collection provides journalism and media students with an invaluable study of newspapers in the digital age.

The Television Will Be Revolutionized, Second Edition May 31 2022 Many proclaimed the "end of television" in the early years of the twenty-first century, as capabilities and features of the boxes that occupied a central space in American living rooms for the preceding fifty years were radically remade. In this revised, second edition of her definitive book, Amanda D. Lotz proves that rumors of the death of television were greatly exaggerated and explores how new distribution and viewing technologies have resurrected the medium. Shifts in the basic practices of making and distributing television have not been hastening its demise, but are redefining what we can do with television, what we expect from it, how we use it—in short, revolutionizing it. Television, as both a technology and a tool for cultural storytelling, remains as important today as ever, but it has changed in fundamental ways. The Television Will Be Revolutionized provides a sophisticated history of the present, examining television in what Lotz terms the "post-network" era while providing frameworks for understanding the continued change in the medium. The second edition addresses adjustments throughout the industry wrought by broadband delivered television such as Netflix, YouTube, and cross-platform initiatives like TV Everywhere, as well as how technologies such as tablets and smartphones have changed how and where we view. Lotz begins to deconstruct the future of different kinds of television—exploring how "prized content," live television sports and contests, and linear viewing may all be "television," but very different types of television for both viewers and producers. Through interviews with those working in the industry, surveys of trade publications, and consideration of an extensive array of popular shows, Lotz takes us behind the screen to explore what is changing, why it is changing, and why the changes matter.
