<u>Workbook for Fordney's</u>	<u>Medical Insurance and Billing</u> Feb 21 2022 Get hands-on	practice in medical insurance billing and coding!
-------------------------------	--	--

Corresponding to the chapters in Fordney's Medical Insurance and Billing, 16th Edition, this workbook provides realistic exercises that help you apply concepts and develop the critical thinking skills needed by insurance billing specialists. Review questions reinforce your understanding of your role and responsibilities, and assignments ask you to complete claim forms by extracting information from patient records and properly selecting procedural and diagnostic codes. Not only will you master the CMS-1500 and 837P claim forms, but you will understand each stage of an insurance claim. Self-study exercises reinforce your

understanding with matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions, as well as critical thinking assignments. Key terms and abbreviations at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Study outlines focus your review by listing the key points for each chapter. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Critical Thinking assignments are based on short, real-world vignettes, preparing you to work in a real medical office and allowing you to apply theory learned from the

textbook. Updated mock fee schedules present the latest information available, for use in completing forms and activities. Expanded coverage of inpatient insurance billing includes ICD-10 coding and CMS coding, ensuring that you are prepared to work in healthcare facility settings as well as the physician's office and outpatient settings. Updated information on general compliance issues, HIPAA, the Affordable Care Act, and coding reflects changes to the Fordney's Medical Insurance and Billing, 16th Edition text. Ambulatory Surgery Center chapter provides the foundation and skills needed for billing in this

outpatient setting. NEW!
Additional procedures provide more practice, helping you remember the material.
Insurance Handbook for the Medical Office - Text and Workbook Package Aug 18 2021 Stay up on the latest in insurance billing and coding with Marilyn Fordney's Insurance Handbook for the Medical Office, 14th Edition. Trusted for more than 30 years, this market-leading handbook equips you to succeed as medical insurance specialist in any of today's outpatient settings. Coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding,

Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that assist you in accurately filling out claim forms. This new edition also features expanded coverage of ICD-10, electronic medical records, electronic claims submission, and the HIPAA 5010 - keeping you one step ahead of the latest practices and protocols of the profession. Key terms are defined and emphasized

throughout the text to reinforce understanding of new concepts and terminology. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout the text highlights important HIPAA compliance issues to ensure readers are compliant with the latest regulations. Emphasis on the business of running a medical office and the importance of the medical insurance specialist details the importance of the medical insurance specialist in the business of the medical office. Increased focus on electronic filing/claims submission prepares readers for the industry-wide transition to electronic claims

submission. Separate chapter on documentation in the medical office covers the principles of medical documentation and the rationales for it. "Service to Patient" features in most chapters offer examples of good customer service. User resources on the Evolve companion website feature performance checklists, self-assessment quizzes, the Student Software Challenge (with cases on different payer types and an interactive CMS-1500 (02-12) form to fill in). NEW Expanded coverage of ICD-10 prepares users to code ICD-10 with the planned effective date of October 2015. NEW Added information

on the electronic medical record and electronic claims submission - including information on the HIPAA 5010 - equips users for the transition between paper and electronic methods of medical records and links the CMS-1500 (02-12) form to the electronic submissions process. of this extremely up-to-date text is to increase efficiency and streamline administrative procedures for the most exasperating aspect of the doctor's office routine: insurance billing. This text offers guidance for all aspects of submitting, tracing, appealing, and transmitting claims for today's full range of health plans. Important coverage of diagnostic coding, procedural coding, office and insurance collection strategies, Medicare, Managed Care, and more is presented. Additionally, a free CD-ROM featuring the HCFA-1500 claim form is included with the book. The CD-ROM contains 10 scored patient case studies with

related insurance information so that the student can practice completing the HCFA-1500 claim form in a fun, interactive format. This edition of the Fordney text is full colour (and is the first text in this discipline to use this format). This full-color format will help the students identify each insurance payer with a specific color and icon, thus making the learning process more effective. The text has been updated to reflect recent changes in procedural coding for government programs and the private sector. Also in this edition, the text has been completely rewritten by the author to emphasize procedural (CPT and HCPCS)

and diagnostic (ICD-9-CM) coding and documentation which are the keystones to obtaining maximum reimbursement.

CPT 2021 Professional Edition

Jun 03 2020 CPT® 2021 Professional Edition is the definitive AMA-authored resource to help health care professionals correctly report and bill medical procedures and services. Providers want accurate reimbursement. Payers want efficient claims processing. Since the CPT® code set is a dynamic, everchanging standard, an outdated codebook does not suffice. Correct reporting and billing of medical procedures

and services begins with CPT® 2021 Professional Edition. Only the AMA, with the help of physicians and other experts in the health care community, creates and maintains the CPT code set. No other publisher can claim that. No other codebook can provide the official guidelines to code medical services and procedures properly.

FEATURES AND BENEFITS

The CPT® 2021 Professional Edition codebook covers hundreds of code, guideline and text changes and features: CPT® Changes, CPT® Assistant, and Clinical Examples in Radiology citations -- provides cross-referenced information in popular AMA
