An American Tragedy Mar 17 2021 Ambitious, but ill-educated, naïve, and immature, Clyde Griffiths is raised by poor and devoutly religious parents to help in their street missionary work. As a young adult, Clyde must, to help support his family, take menial jobs as a soda jerk, then a bellhop at a prestigious Kansas City hotel. There, his more sophisticated colleagues introduce him to bouts of social drinking and sex with prostitutes. Enjoying his new lifestyle, Clyde becomes infatuated with manipulative Hortense Briggs, who takes advantage of him. After being in a car accident in which a young girl loses her life, Clyde is forced to run away from the town in search for the new life.

Inside Jurors' Minds May 07 2020 This book discusses the conscious and unconscious psychological factors that influence juror decision-making. Jurors inevitably rely on the same "thinking tools" at trial that they use to solve problems and make decisions in their everyday lives, which makes it almost impossible for them to divorce instinct and emotion from decision-making. Their fight-or-flight reflexes are stimulated not only by predators but by information that makes them fear for their personal safety—even if the threatening information is something they merely imagine. Because self-preservation is a primal instinct, jurors tend to unconsciously respond by disregarding or altering the "threatening" evidence. Information that conflicts with their personal beliefs and biases often elicits a similar response. Therefore, what jurors hear and remember about a case will inevitably be a reflection of who they are, what they value, and what their life experiences have been. Because jurors unconsciously weigh information in a hierarchical fashion, the "hierarchy of juror decision-making" can serve as a blueprint for creating strategies to counteract the most common thinking

errors that can skew jurors' perceptions of the case. This is a valuable weapon that should be in every trial lawyer's arsenal.

Lines of Narrative Dec 14 2020 This volume brilliantly advances our understanding of the use of narrative in the social sciences. It brings together contemporary work on narrative theory and methods and presents a fascinating range of case-studies, from Princess Diana's Panorama interview to the memoirs of the wives of US nuclear scientists.

I Need the Happy Ending Apr 29 2022 Have you ever wondered how you're going to survive this next week, day, or hour? Perhaps you are standing on the fault line in the battle of your life. Perhaps you are already engaged. Whatever the case, whether your struggle is physical, spiritual, emotional, or mental, in the accumulated losses and taxing stressors you face, know you are not alone. There is hope, and a way through. In *Breathe*, Shawna shares her story of marriage; an arranged marriage of sorts, that was rooted in ambiguous faith, submerged in mental and emotional captivity, and survived with glimpses of hope, learned coping strategies, and tremendous support found through vulnerability. *Breathe* speaks to the caregiver of someone who has attempted suicide, the individual struggling to survive mental illness, and the supportive friend or family member who wants to understand the all-too-often hidden life of a family raped by these realities. Some moments make you lose your breath. In others, all you can do is breathe. Shawna's desire is that by sharing her story others will feel empowered to do the same. *Breathe* is an inside look into her life. It is also a map for hope, and a legend to help you find your way.

How to Market Books Sep 22 2021 'Baverstock is to book marketing what Gray is to anatomy; the undisputed champion.' Richard Charikin, Executive Director of Bloomsbury Publishing and President Elect of the International Publishers Association Over four editions, Alison Baverstock's *How to Market Books* has established itself as the industry standard text on marketing for the publishing industry, and the go-to reference guide for professionals and students alike. With the publishing world changing like never before, and the marketing and selling of content venturing into uncharted technological territory, this much needed new edition seeks to highlight the role of the marketer in this rapidly changing landscape. The new edition is thoroughly updated and offers a radical reworking and reorganisation of the previous edition, suffusing the book with references to online/digital marketing. The book maintains the accessible and supportive style of previous editions but also now offers: a number of new case studies detailed coverage of individual market segments checklists and summaries of key points several new chapters a foreword by Michael J Baker, Professor Emeritus of Marketing, Strathclyde University.

Frankenstein (Modern English Translation) Jun 19 2021 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's *Frankenstein*, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

The Haunting of Cabin Green Jan 15 2021 Welcome to Cabin Green, where the setting is familiar, but the story is completely unexpected. This original, terrifying psychological thriller is the debut horror novel from the author of the *Midnight Myths and Fairy Tales Series*. Going to Cabin Green alone after the death of his fiancée was Ben's first mistake. His second mistake was tempting fate by saying, "There's no such thing as an evil building." Now he's caught in a nightmare of his own making deep in the woods of Northern Michigan. Even worse, a family history of mental illness makes it impossible for him to know if the ghosts haunting the cabin are real or all in his head. This modern Gothic horror story takes the reader directly into Ben's hellish experience. Is he crazy? Is a ghost haunting him? The only way to find out is to make it to the end of this deep, dark thrill ride that's filled with more twists than a roller coaster. This novel was inspired by a real-life, spooky green cabin in Northern Michigan that's so well-hidden it can't be found by GPS! Content Warning: This isn't a *Saw*-type torture story, but it does contain gore, sex, profanity, and deeply disturbing psychological themes. For mature readers only. Review for *The Haunting of Cabin Green* "This book will challenge its readers, and that is a good thing... You are taken on a nightmarish, uncomfortable journey and you soon realize you can't count on the standard rules of storytelling. The author is brave enough to push the envelope and leave you not even guessing the end!" - Goodreads Reviewer Reviews for the Author's Previous Work "Beautifully bewitching... it's a fast-paced, captivating tale, and the writing is exquisite." - Kindle Reviewer "This story is like a witch's spell drawing the reader in." - Kindle Reviewer "Very original... the ending was completely surprising." - Kindle Reviewer "It really whets your appetite for more." - Kindle Reviewer "I felt immersed in the story!" - Kindle Reviewer "Well-written and immediately draws you into the story, with no lag in momentum." - Goodreads Reviewer Excerpt from *The Haunting of Cabin Green: A Modern Gothic Horror Novel* ...Unsure what the vast blanket of fog was hiding but certain he wanted to live, Ben's limbs stopped moving. 'This is crazy. I know I didn't hit anything.' Another part of his mind refuted this logic. 'Then why am I crawling in the middle of a highway?' As distasteful and terrifying as it was, he'd never be able to live with himself if he didn't uncover the identity of the object - 'not a person' - that had tripped him. Hesitation clawed at every fiber of his being, but he forced his way forward until his right hand brushed a raw, rough surface. He yanked his hand back like it was on fire before regaining control of his actions. 'I can do this.' Ben reached out again, and his fingertips came into tentative contact with the alien object. The moisture in the air hadn't seeped into its skin. His left fist covered his mouth to stop audible proof of his fear from escaping. At the same time, he increased the pressure of his right fingers in a bid to figure out what - or who - had gotten in his way. A crumbling sensation sent shock waves throughout his body. He managed to hold on long enough for a small sliver of something unknown to drop into his palm. Unable to keep his composure any longer, he darted back to the car, careful not to drop the evidence. He slammed the door shut and jammed the locks in place before turning to face the source of his inevitable doom. With his eyes squeezed shut, he uncurled his fist and put the object on display. His left eyelid lifted a fraction of an inch to test the waters before he dove in and allowed both eyes to confront the truth...

Health Psychology Oct 04 2022 "When I wrote the first edition of *Health Psychology* over 30 years ago, the

task was much simpler than it is now. Health psychology was a new field and was relatively small. In recent decades, the field has grown steadily, and great research advances have been made. Chief among these developments has been the use and refinement of the biopsychosocial model: the study of health issues from the standpoint of biological, psychological, and social factors acting together. Increasingly, research has attempted to identify the biological pathways by which psychosocial factors such as stress may adversely affect health and potentially protective factors such as social support may buffer the impact of stress. My goal in the tenth edition of this text is to convey this increasing sophistication of the field in a manner that makes it accessible, comprehensible, and exciting to undergraduates"--

English Romantic Poetry Sep 10 2020 Rich selection of 123 poems by six great English Romantic poets: William Blake (24 poems), William Wordsworth (27 poems), Samuel Taylor Coleridge (10 poems), Lord Byron (16 poems), Percy Bysshe Shelley (24 poems) and John Keats (22 poems). Introduction and brief commentaries on the poets. Includes 2 selections from the Common Core State Standards Initiative: "Ozymandias" and "Ode on a Grecian Urn."

Community Gardening as Social Action Jun 27 2019 There has been a resurgence of community gardening over the past decade with a wide range of actors seeking to get involved, from health agencies aiming to increase fruit and vegetable consumption to radical social movements searching for symbols of non-capitalist ways of relating and occupying space. Community gardens have become a focal point for local activism in which people are working to contribute to food security, question the erosion of public space, conserve and improve urban environments, develop technologies of sustainable food production, foster community engagement and create neighbourhood solidarity. Drawing on in-depth case studies and social movement theory, Claire Nettle provides a new empirical and theoretical understanding of community gardening as a site of collective social action. This provides not only a more nuanced and complete understanding of community gardening, but also highlights its potential challenges to notions of activism, community, democracy and culture.

The Graham Cracker Plot Mar 29 2022 Meet Daisy Bauer and her sometimes best friend, Graham, who are determined to break Daisy's dad out of prison in this hilarious middle-grade debut. No one believes her, but Daisy Bauer knows her dad has been wrongfully imprisoned and that it's up to her to break him out of jail (aka Club Fed). She has a plan that she's calling the Graham Cracker Plot because it was all Graham's idea. She just needs a miniature horse, a getaway truck, and a penny from 1919—the idea coin. This funny, nail-biter of a novel is about friendship and admitting you're wrong. Debut novelist Shelley Tougas balances humor and warmth against themes of family, broken trust, and unconditional love against all odds. This title has Common Core connections.

An Introduction to Stochastic Modeling Feb 13 2021 An Introduction to Stochastic Modeling provides information pertinent to the standard concepts and methods of stochastic modeling. This book presents the rich diversity of applications of stochastic processes in the sciences. Organized into nine chapters, this book begins with an overview of diverse types of stochastic models, which predicts a set of possible outcomes weighed by their likelihoods or probabilities. This text then provides exercises in the applications of simple stochastic analysis to appropriate problems. Other chapters consider the study of general functions of independent, identically distributed, nonnegative random variables representing the successive intervals between renewals. This book discusses as well the numerous examples of Markov branching processes that arise naturally in various scientific disciplines. The final chapter deals with queueing models, which aid the design process by predicting system performance. This book is a valuable resource for students of engineering and management science. Engineers will also find this book useful.

A Hoser's Guide to Canadian History Apr 17 2021 The great thing about being Canadian is simply this: we

don't take ourselves too seriously, which works out pretty well because no one else on the planet takes us seriously, either. If you're reading this book, there's a good chance you're a Canadian. But what does that mean? There are the stereotypical nods, such as politeness and apologizing, but there's so much more! To be honest, you've probably taken part in (or at least talked about) hockey, poutine, curling, canoes, health care, snowshoes, parkas, camping, beer, road work, Canadian Tire, Slurpees, moose, maple syrup, and Tim Hortons in the last 24 hours. "A Hoser's Guide to Canadian History" is your ticket to even more things "Canadian" that you may have missed during your water-cooler discussions, online chats, or your seventeen-hour wait in the local emergency room. As you read this book, you'll discover new and exciting facts about Canada that simply weren't taught in school. As a History teacher, I found the need to spread the unvarnished truth of this great nation's past. People like Sir John "Eh" MacDonald, Tommy Douglas, and Pierre Trudeau all had a distinct impact on this great country of ours, and part of their stories are included in these pages. Even less-famous folks who helped to shape Canada got a mention: John Humphrey, Laura Secord, and Egerton Ryerson. (Yes, "Egerton" is a real name.) Canada has an exciting past, full of events that have brought us to where we are now. Like all countries, we have some things we'd like to forget, but most of those unpleasant moments happened because we had morons in Parliament, something that doesn't happen anymore. Canadians have no need to apologize for being nice, honest, and caring people. So, please enjoy this book, and if you don't, well, I'm sorry.

The Accidental Feminist Feb 25 2022 Movie stars establish themselves as brands--and Taylor's brand , in its most memorable outings, has repeatedly introduced a broad audience to feminist ideas. In her breakout film, "National Velvet" (1944), Taylor's character challenges gender discrimination,: Forbidden as a girl to ride her beloved horse in an important race, she poses as a male jockey. Her next milestone, "A Place in the Sun" (1951), can be seen as an abortion rights movie--a cautionary tale from a time before women had ready access to birth control. In "Butterfield 8" (1960), for which she won an Oscar, Taylor isn't censured because she's a prostitute, but because she chooses the men: she controls her sexuality, a core tenet of the third-wave feminism that emerged in the 1990s. Even "Who's Afraid of Virginia Woolf?" (1966) depicts the anguish that befalls a woman when the only way she can express herself is through her husband's stalled career and children. The legendary actress has lived her life defiantly in public--undermining post-war reactionary sex roles, helping directors thwart the Hollywood Production Code, which censored film content between 1934 and 1967. Defying death threats she spearheaded fundraising for AIDS research in the first years of the epidemic, and has championed the rights of people to love whom they love, regardless of gender. Yet her powerful feminist impact has been hidden in plain sight. Drawing on unpublished letters and scripts as well as interviews with Kate Burton, Gore Vidal, Austin Pendleton, Kevin McCarthy, Liz Smith, and others, *The Accidental Feminist* will surprise Taylor and film fans with its originality and will add a startling dimension to the star's enduring mystique.

Measuring the Effects of Racism Dec 26 2021 A large body of research has established a causal relationship between experiences of racial discrimination and adverse effects on mental and physical health. In *Measuring the Effects of Racism*, Robert T. Carter and Alex L. Pieterse offer a manual for mental health professionals on how to understand, assess, and treat the effects of racism as a psychological injury. Carter and Pieterse provide guidance on how to recognize the psychological effects of racism and racial discrimination. They propose an approach to understanding racism that connects particular experiences and incidents with a person's individual psychological and emotional response. They detail how to evaluate the specific effects of race-based encounters that produce psychological distress and possibly impairment or trauma. Carter and Pieterse outline therapeutic interventions for use with individuals and groups who have experienced racial trauma, and they draw attention to the importance of racial awareness for practitioners. The book features a racial-trauma assessment toolkit, including a race-based traumatic-stress symptoms scale and interview schedule. Useful for both scholars and practitioners, including social workers, educators, and counselors, *Measuring the Effects of Racism* offers a new framework of race-based traumatic stress that helps legitimize psychological reactions to experiences of racism.

Selected Poems and Prose Jul 21 2021 A major new anthology of Percy Bysshe Shelley's work, edited by Jack Donovan and Cian Duffy. 'My name is Ozymandias, King of Kings: Look on my works, ye mighty, and despair!' Percy Bysshe Shelley was one of the leading English Romantics and is critically regarded among the finest lyric poets in the English language. His major works include the long visionary poems 'Prometheus Unbound' and 'Adonais', an elegy on the death of John Keats. His shorter, classic verses include 'To a Skylark', 'Mont Blanc' and 'Ode to the West Wind'. This important new edition collects his best poetry and prose, revealing how his writings weave together the political, personal, visionary and idealistic. This Penguin Classics edition includes a fascinating introduction, notes and other materials by leading Shelley scholars, Jack Donovan and Cian Duffy.

Imagined Futures in Science, Technology and Society Jul 09 2020 Imagining, forecasting and predicting the future is an inextricable and increasingly important part of the present. States, organizations and individuals almost continuously have to make decisions about future actions, financial investments or technological innovation, without much knowledge of what will exactly happen in the future. Science and technology play a crucial role in this collective attempt to make sense of the future. Technological developments such as nanotechnology, robotics or solar energy largely shape how we dream and think about the future, while economic forecasts, gene tests or climate change projections help us to make images of what

may possibly occur in the future. This book provides one of the first interdisciplinary assessments of how scientific and technological imaginations matter in the formation of human, ecological and societal futures. Rooted in different disciplines such as sociology, philosophy, and science and technology studies, it explores how various actors such as scientists, companies or states imagine the future to be and act upon that imagination. Bringing together case studies from different regions around the globe, including the electrification of German car infrastructure, or genetically modified crops in India, *Imagined Futures in Science, Technology and Society* shows how science and technology create novel forms of imagination, thereby opening horizons toward alternative futures. By developing central aspects of the current debate on how scientific imagination and future-making interact, this timely volume provides a fresh look at the complex interrelationships between science, technology and society. This book will be of interest to postgraduate students interested in Science and Technology Studies, History and Philosophy of Science, Sociology, Cultural Studies, Anthropology, Political Sciences, Future Studies and Literary Sciences.

The Tending Instinct May 31 2022 Ranging widely over biology, evolutionary psychology, physiology, and neuroscience, "The Tending Instinct" examines the biological imperative that drives women to seek each other's company and to tend to the young and the infirm, bestowing great benefits to the group but often at great cost to themselves.

Proceedings of the 8th International Conference on Human Rights Jul 01 2022 The material contained in this publication is the outcome of the 8th International Conference on Human Rights "Right to Knowledge and Information in Heterogenic Society", organized by the Faculty of Law and Administration in the University of Warmia and Mazury in Olsztyn (Poland), in cooperation with the Faculty of Law in the University of Bari (Italy), which took place on 30-31 May 2008 in Olsztyn. The selection of issues in no respect can be called accidental. The summit of the European Council in Lisbon in March 2000 created foundations for creating society based on knowledge that is conscious in gaining information and equal access to knowledge. Individual actions of countries should aim at creating a human-friendly "information society" which allows creation of new working places and developing information and telecommunication technologies. This broad spectrum of problems which were the subject of the conference, interests not only Polish researchers but also scientists from countries like Italy, Spain, Ukraine, the United States of America, United Kingdom, and South Korea. They represent various cultures, which implies differences of opinion on many issues related to human rights. Publications included in this collective work are the reflection of freedom to express thoughts on difficult topics, which are important for all though.

The Parish Registers of Kirkburton, Co. York: 1654-1711. Appendix of family histories Jul 29 2019

Sail Jan 03 2020 Since the death of her husband, Anne Dunne and her three children have struggled in every way. In a last ditch effort to save the family, Anne plans an elaborate sailing vacation to bring everyone together once again. But only an hour out of port, everything is going wrong. The teenage daughter, Carrie, is planning to drown herself. The teenage son, Mark, is high on drugs and ten-year-old Ernie is nearly catatonic. This is the worst vacation ever. Anne manages to pull things together bit by bit, but just as they begin feeling like a family again, something catastrophic happens. Survival may be the least of their concerns. Written with the blistering pace and shocking twists that only James Patterson can master, *SAIL* takes "Lost" and "Survivor" to a new level of terror.
